

# Rubber-backed Ceramic Lagging

Hard ceramic dimples grab rubber of your conveyor for geared drive-effect between conveyor belt and your pulley to eliminate belt slippage.

- » Ceramic-embedded rubber strip
- » Low wearing - 10 x times life of rubber-only lagging
- » Drive/non-drive
- » Maximum grip
- » In-field
- » Optional - brand with your logo
- » Also in half-ceramic
- » Neoprene rubber backing for exceptional adhesion

**Rectangular dimple**

**Arrow dimple**

**Smooth ceramic**  
For non-drive pulleys  
and difficult high wear  
applications

**Square dimple  
and smooth**
