

Polyurethane Products

Brain Industries is Australia's expert in manufacturing polyurethane industrial products. Polyurethane is long lasting, sustainable, and cost effective - saving you money in the long run.

Premium polyurethane industrial products - such as lagging - outlast and outperform products made from other materials. Polyurethane coatings protect and extend the life of equipment.

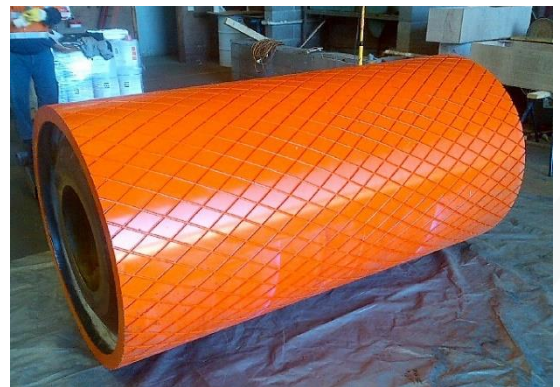

Our genius engineers also custom design polyurethane products to solve your business problems. We can vary the polyurethane in terms of its hardness, elongation, tensile, and abrasion resistance.
